

Key Investor Information

This document provides you with key investor information about this Compartment. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Compartment. You are advised to read it so you can make an informed decision about whether to invest.

VAM Funds (Lux) – International Opportunities Fund , a sub-fund of VAM Funds (Lux) - C
LU1235257877

The Management Company is VAM Global Management Company S.A.

Objectives and Investment Policy

The investment objective of the Compartment is to maximize capital appreciation over each full market cycle. To achieve this objective the Compartment will gain exposure, directly or indirectly, to unleveraged portfolio of equity and equity-convertible securities and cash or cash equivalents. The Compartment's assets will consist primarily of equity or equity-convertible securities of non-US companies with perceived high growth potential. There are no restrictions on the capitalisation of companies whose securities the Compartment may buy but the investment strategy focuses on securities of smaller capitalisation companies. There are no maximum limitations on the number of countries in which the Compartment can or must invest at a given time. There are also no specific limitations on the percentage of assets that may be invested in securities or issuers located in any one country at a given time. The Compartment may invest a substantial portion of its assets in emerging markets from time to time. The Compartment may use derivative techniques and instruments for currency hedging purposes within the limits set out in the investment restrictions. The Compartment may hold liquid assets on an ancillary basis. Under exceptional market situations and on a temporary basis, the Fund may temporarily hold up to 100% of its assets in liquid assets. In principle you can sell shares of the Compartment on every full bank business day. Income remains in the Fund and is reinvested.

Risk and Reward Profile

This risk and reward indicator illustrates where the Fund is positioned in terms of its possible risk and reward. The higher the Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time. Even if the Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

The risk and reward indicator has been calculated using simulated historical performance data, which may not be a reliable indicator of the Fund's future risk and reward profile.

This Fund is in category 5 since the price changes of the Fund have been moderate in the past.

The following risks are not fully reflected in the above classification but still influence the Fund's value. Further information about risk can be found in the prospectus which is available at www.vam-funds.com/library/reports/?share=a.

Liquidity risk: Some of the assets of the Fund may become difficult to sell at a certain time and for a reasonable price.

Emerging market risk: The Fund invests in securities in emerging markets, which can be subject to economic and political instability, less developed legal infrastructure, possibility of large currency fluctuations or low liquidity in local markets.

Currency risk: The Fund invests in securities that are issued in currencies other than the base currency of the Fund. As a result the Fund is subject to currency risk, which arises from changes in the exchange rates between countries.

Charges

Entry charge => none

Exit charge => none

Ongoing charges => 1.59%

Performance fee => 1.16%

*The performance fee is equal to 15% of any return above 12% per year (Hurdle Rate), provided that the return exceeds the greater of the Class's highest net asset value per share of the current financial year or the last net asset value per share of the previous financial year (High Water Mark). The Class pays the performance fee on a quarterly basis.

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Actual entry and exit charges can be obtained from your financial adviser or distributor.

The ongoing charges figure is an estimate based on expected total of charges. This figure may vary from year to year. Performance fees and portfolio transaction costs are not included in the ongoing charges figure, except for portfolio transaction costs for entry/exit charges paid by the Fund when buying or selling units of another fund.

More information on charges, including information on how the performance fee is calculated, can be found in section Fund Expenses of the prospectus, available from the registered office of VAM Funds (Lux).

Past Performance

The Class was launched in 01.07.2015.

For the calculation of this past performance all charges and fees have been included, except any entry, exit or conversion charges that may have been paid when buying, selling or converting shares of the Fund.

The past performance has been calculated in USD.

The past performance is no guarantee for future performance.
