## VAM FUNDS (LUX)

### VAM Funds (Lux) – World Growth Fund

<b>Important Information</b>	<p>This simplified prospectus contains key information about VAM Funds (Lux) – World Growth Fund (the "Compartment"). If you would like more information before you invest, please consult the most recent full prospectus (the "Full Prospectus ") of VAM Funds (Lux) (hereinafter the "Fund"). Unless defined in this document, defined terms shall bear the same meaning as in the Full Prospectus. For details about the Compartment's holdings, please see the most recent report.</p> <p>The rights and duties of the investor as well as the legal relationship with the Fund are laid down in the Full Prospectus. The Full Prospectus and the periodical reports may be obtained free of charge from the Fund.</p>
<b>Investment objective</b>	<p>The investment objective of the Compartment is to achieve significant capital appreciation over each full market cycle. To achieve this objective the Compartment will invest in an unleveraged portfolio of equity and equity-convertible securities and cash or cash equivalents.</p> <p>The Compartment invests primarily in equity securities of both U.S. and non-U.S. companies exhibiting strong growth characteristics. Under normal market conditions, the Compartment primarily invests in common stocks and other equity securities, including preferred stocks, both within and outside the U.S., whose market capitalization is greater than \$1.0 billion at the time of investment, although the Compartment may invest in companies with lower market capitalizations if market conditions suggest doing so will help the Compartment achieve its objective. The Compartment seeks to be opportunistic in pursuing companies that meet its criteria regardless of geographic location and, therefore, at certain times, the Compartment could have sizeable positions in either developed countries or emerging markets. The Compartment may invest in companies with limited operating histories.</p>
<b>Compartment's risk profile</b>	<p>The Compartment is subject to market, interest rates or currency fluctuations and to the risk inherent in all investments. Investors should note that the use of derivative instruments entails certain risks that may have a negative impact on the performance of the Compartment. The Compartment may invest in securities of issuers of emerging countries and investors should be aware that such investments are more speculative and subject to greater risk than those in securities of issuers of developed countries. Emerging markets may be volatile and illiquid and the investments of the Compartment in such markets may be subject to significant delays in settlement. The risk of significant fluctuations in the net asset value and of the suspension of redemptions in the Compartment may be higher than for Compartments investing in major world markets. In addition, there may be a higher than usual risk of political, economic, social and religious instability and adverse changes in government regulations and laws in less developed or emerging markets. The assets of the Compartment, as well as the income derived therefrom, may also be affected unfavourably by fluctuations in currency rates and exchange control and tax regulations and consequently the net asset value of the</p>

	<p>Compartment's Shares may be subject to significant volatility. Some of these markets may not be subject to accounting, auditing and financial reporting standards and practices comparable to those of more developed countries and the securities markets of such markets may be subject to unexpected closure. In addition, there may be less government supervision, legal regulation and less well defined tax laws and procedures than in countries with more developed securities markets. Foreign securities may include securities of companies located outside of the United States, American Depositary Receipts (ADRs) Global Depositary Receipts (GDRs), exchange traded funds and other international and global investment instruments providing an exposure to the assets described above.</p> <p>Therefore, no assurance can be given that the Compartment will achieve its objective, the invested capital will be preserved, or that capital appreciation will occur.</p>
<p><b>Performance of the Compartment</b></p>	<p>No performance data for this compartment is available at this time.</p>
<p><b>Performance disclaimer</b></p>	<p>Past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of shares and the income from them may fall as well as rise.</p>
<p><b>Profile of the typical investor</b></p>	<p>The Portfolio is suitable for investors seeking long-term growth through capital appreciation and who want to participate in the long-term growth of the global economy. It is also suitable for investors wishing to diversify their investment portfolios, who are comfortable with and understand the risks of investing in the stock market, who have an investment horizon of at least five to seven years, and who seek investment opportunities in the global equity markets.</p>
<p><b>Treatment of income</b></p>	<p>The Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result no dividend shall be paid out.</p>
<p><b>Compartment Expenses</b></p>	<p>The Compartment will pay out of its net assets an advisory fee, payable on a monthly basis, which is based on the average net asset value of the shares during the relevant period.</p> <p>The advisory fees for the Compartment amount to 2.25% per annum for Class A and B shares, 0.75% per annum for Class C shares, and 1.50% per annum for Class E shares.</p> <p>The Compartment will pay out of its net assets custody and administration fees which shall not exceed 0.5 % of the average net asset value of the Compartment (excluding any taxes) and which are payable on a monthly basis.</p> <p>In addition to the advisory fee, a performance fee may be paid to the Advisory Company on a quarterly basis in relation to Class A, Class B and Class C Shares, with the amount based on the relative performance of these Classes to the MSCI All Country World Growth Index (USD) and calculated on the average month-end assets during the quarter, subject to a high water mark provision. Relative performance is defined as the return of the relevant Class, after advisory fees and other fees and expenses attributable to the Class for the quarter less the return of the MSCI All Country World Growth Index (USD) for the quarter. The high water mark is defined as the largest positive cumulative relative performance percentage figure for the Class since inception. A performance-based fee will only be paid in quarters where the cumulative relative performance exceeds the high water mark and where the quarter-end NAV per Share is equal or higher to the NAV per Share of the previous quarter-end. In such instances, the performance fee is computed as 20% of the difference between the current quarter's cumulative relative performance and the high water mark.</p> <p>No performance fee is due in relation to Class E Shares.</p>

<p><b>Shareholders expenses</b></p>	<p>Subscription fee</p>	<p>up to 5% of the subscription proceeds (representing up to 5.26% of the net asset value of the shares being subscribed)</p>
	<p>Redemption fee</p>	<p>up to 2% of the net asset value of the shares being redeemed</p>
	<p>Conversion charges</p>	<p>based on the respective net asset values as calculated on the valuation day of the compartments concerned plus the amounts charged for the issue and the redemption as mentioned above</p>
<p><b>Taxation of the Compartment</b></p>	<p><u>Taxation in Luxembourg</u></p> <p>In accordance with current Luxembourg law, the Fund is not subject to any tax on income, capital gains tax or wealth tax. Moreover, no dividends distributed by the Fund are subject to withholding tax.</p> <p>However, income collected by the Fund on securities in its portfolios may be subject to withholding tax which, in normal circumstances, cannot be reclaimed.</p> <p>The Fund's net assets are subject to a subscription tax of 0.05% per annum payable at the end of each quarter and calculated on the basis of the Fund's total net assets at the end of the relevant quarter. Such tax rate is reduced to 0.01% in respect of the net assets attributable to such Classes of shares or Compartments which are reserved for institutional investors as defined from time to time by the Luxembourg Supervisory Authority.</p> <p><u>EU Taxation</u></p> <p>The Council of the EU has, on 3 June 2003, adopted Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "Directive"). Under the Directive, Member States of the EU will be required to provide the tax authorities of another EU Member State with information on payments of interest or other similar income paid by a paying agent (as defined by the Directive) within its jurisdiction to an individual resident in that other EU Member State. Austria, Belgium and Luxembourg have opted instead for a tax withholding system for a transitional period in relation to such payments. Switzerland, Monaco, Liechtenstein, Andorra, San Marino, Jersey, Guernsey, the Isle of Man and the dependent or associated territories in the Caribbean, have also introduced measures equivalent to information reporting or, during the above transitional period, withholding tax.</p> <p>The Directive has been implemented in Luxembourg by a law dated 21 June 2005 (the "EUSD Law").</p> <p>Dividends distributed by the Compartment will be subject to the Directive and the EUSD Law if more than 15% of the Compartment's assets are invested in debt claims (as defined in the EUSD Law) and proceeds realised by shareholders on the redemption or sale of shares in the Compartment will be subject to the Directive and the EUSD Law if more than 40% of the Compartment's assets are invested in debt claims.</p> <p>The applicable withholding tax will be at a rate of 20% from 1 July 2008 until 30 June 2011 and 35% from 1 July 2011 onwards.</p> <p>Given the investment policy of the Compartment, it is currently expected that the proceeds realised by Shareholders on the redemption or sale of shares in the Compartment will not be subject to the Directive and the EUSD Law.</p>	
<p><b>Price publication</b></p>	<p>The net asset value of each Class shall be calculated on each day that is a bank business day in Luxembourg and New York. The net asset value per share of each Class as well as the issue and redemption prices will be made public at the offices of the Central Administration.</p>
