## Objectives and Investment Policy

The objective of the Compartment is to provide long term capital appreciation. The Compartment is actively managed, investing in various sub-funds of VAM Funds (Lux), a UCITS fund domiciled in Luxembourg. The Compartment's investment manager updates the allocation of the sub-funds following an analysis that balances the Compartment's investment objective and the Compartment's administrative purpose of providing broad exposure to the underlying sub-funds. However, no more than 20% of the Compartment's net assets will be allocated to a single sub-fund of VAM Funds (Lux). In addition, the Compartment may invest up to 100% of its net assets, for defensive purposes and on a temporary basis, in bank deposits as well as invest in money market instruments, money market UCIs, cash or short-term fixed income instruments. The Compartment may invest in financial derivative instruments only for the purpose of hedging risks. In principle you can sell shares of the Compartment on every full bank business day. Income remains in the Compartment and is reinvested.
