ALQUITY SICAV - ALQUITY ASIA FUND - Y (EUR) Accumulation LU1070051880

The Management Company is Limestone Platform AS

Objectives and Investment Policy

The sub-fund aims to achieve long-term capital appreciation for investors, by investing in Asian securities. The sub-fund promotes, among others, environmental, social and/or governance characteristics within the meaning of article 8 of Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector.

The sub-fund will invest at least two-thirds of its net assets in equity securities listed on the regulated exchanges of Asia (the Asian region). The sub-fund may also invest in equity securities listed on regulated exchanges outside of the Asian region where more than 50% of revenue, income or operating profit is realised in the Asian region, or will be reasonably expected to do so in the near future. The sub-fund will primarily focus on companies that will benefit from long-term growth opportunities in the Asian region. This will include investing in frontier markets, small and mid-cap companies, as well as large-cap companies where the investment manager identifies unrecognised investment opportunities.

The sub-fund will mainly invest, directly or indirectly, in equities. The sub-fund may also invest in assets such as bonds, Money Market instruments, time deposits, derivatives instruments etc. The sub-fund may, on an ancillary basis, hold cash and equivalents. The sub-fund is unconstrained, with a thematic process that incorporates ESG (environmental, social, governance) and impact analysis. The ESG analysis eliminates over 20% of potential stocks that have passed our thematic filter. Furthermore, in order to meet our desired portfolio characteristics and tracking error, we may optimise the portfolio with reference to a relevant index. It is our intention that the investments contained within the sub-fund will collectively emit lower GHG and use less water than the relevant index. The sub-fund is actively managed without reference to a benchmark. The reference currency of the sub-fund is expressed in USD. The investor may subscribe and redeem shares on each bank business day in Luxembourg and the United Kingdom. These shares are capitalisation shares. Income and capital gains are reinvested.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This risk and reward indicator illustrates where the Fund is positioned in terms of its possible risk and reward. The higher the Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time. Even if the Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

This Compartment is in category 6 since the price changes of the Compartment have been high in the past.

The following risks are not fully reflected in the above classification but still influence the Compartment's value. Further information about risk can be found in the prospectus which is available at <https://alquity.com/>.
