

Key Investor Information

This document provides you with key investor information about this Compartment. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Compartment. You are advised to read it so you can make an informed decision about whether to invest.

Emerging Markets Growth Fund, a sub-fund of VAM Funds (Lux) - E (USD) LU0443655294

The Management Company is VAM Global Management Company S.A.

Objectives and Investment Policy

The investment objective of the Compartment is to maximize capital appreciation over each full market cycle. The Compartment is actively managed, mainly investing in stocks of companies listed or located in emerging markets or that derive a significant amount of their revenues within emerging markets. The Compartment may invest in companies with limited operating histories. The strategy of the Compartment is growth oriented, this means it identifies and invests in stocks of companies with perceived future earnings growth potential. In addition, the Compartment may hold bank deposits as well as invest in bonds issued by companies or governments and money market instruments. In order to achieve its objectives, the Fund may use derivatives to reduce the impact that the market changes might have on the Compartment performance. In principle you can sell shares of the Compartment on every full bank business day. Income remains in the Compartment and is reinvested.

Risk and Reward Profile

This risk and reward indicator illustrates where the Fund is positioned in terms of its possible risk and reward. The higher the Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time. Even if the Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

This Fund is in category 6 since the price changes of the Fund have been high in the past.

The following risks are not fully reflected in the above classification but still influence the Fund's value. Further information about risk can be found in the prospectus which is available at www.vam-funds.com/library/reports/?share=a.

Liquidity risk: Some of the assets of the Fund may become difficult to sell at a certain time and for a reasonable price.

Emerging market risk: The Fund invests in securities in emerging markets, which can be subject to economic and political instability, less developed legal infrastructure, possibility of large currency fluctuations or low liquidity in local markets.

Currency risk: The Fund invests in securities that are issued in currencies other than the base currency of the Fund. As a result the Fund is subject to currency risk, which arises from changes in the exchange rates between countries.

Derivative risk: The Fund uses derivatives, these are financial instruments whose value depends on the value of an underlying asset. Small price changes in the underlying asset can result in large price changes of the derivative.

Charges

Entry charge => 5.00%

Exit charge => none

This is the maximum that might be taken out of your money before it is invested (entry charge).

Ongoing charges => 2.01%

Performance fee => none

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Actual entry and exit charges can be obtained from your financial adviser or distributor.

The ongoing charges figure is an estimate based on expected total of charges. This figure may vary from year to year. Performance fees and portfolio transaction costs are not included in the ongoing charges figure, except for portfolio transaction costs for entry/exit charges paid by the Fund when buying or selling units of another fund.

More information on charges, can be found in section Fund Expenses of the prospectus, available from the registered office of VAM Funds (Lux).

Past Performance

The Class was launched in 11.12.2009.

For the calculation of this past performance all charges and fees have been included, except any entry, exit or conversion charges that may have been paid when buying, selling or converting shares of the Fund.

The past performance has been calculated in USD.

The past performance is no guarantee for future performance.
