What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for seven years. The actual risk can vary significantly if you redeem at an early stage and you may get back less.

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as class 4 out of 7, which is a medium risk class and poor market conditions could impact our capacity to pay you.

This is a marketing communication. Please refer to the Alquity SICAV Prospectus and to the VAM Fundamental Emerging Markets Equity Fund KIID before making any final investment decisions.

Date of issue: 16/04/2026

Annualised return is the weighted average compound growth rate over the performance period measured. Actual annual figures are available to investors on request.
